

Recycling Services

Myers/CMS is a privately owned recycling solutions provider that reconditions and recycles discarded materials.

Recycling History

Myers/CMS Recycling Services began as an environmentally conscious decision to try to keep its own waste out of landfills. After successfully increasing the amount of materials being recycled versus discarded, the service was extended to customers and has since been developed into a division of the business entirely devoted to providing recycling solutions to its customers new and old.

Recycling Services

Myers/CMS Recycling Services specialize in:

- Industrial plastics
- Environmentally safe disposal
- Secure and cost-effective service
- Truckload and LTL pickups quickly with low minimums

Materials Accepted

- Plastic
- Steel
- Cardboard

The pictures to the left are examples of what Myers/CMS is interested in. If your material is not pictured please contact us for more specific recycling information.

Acceptance Requirements

Myers/CMS accepts materials in almost any condition as long as they are empty. All containers with **hazardous** residues require pre-approval of MSDSs and must be properly emptied and closed prior to pick-up. Containers with non-hazardous materials should be empty, or with an approved MSDS, we can arrange for material disposal at a reasonable cost to you.
