Certificate of FDA and EU Compliance

This letter is to certify that the film forming components of all KNS steel drum coatings (L-1, L-5X, L-15, L-35, and L-40) are produced with materials listed in the Federal Register under 21 CFR 175.300 (Resinous and Polymeric Coatings for Direct Food Contact). When properly applied and cured all linings are FDA approvable.

All KNS linings are in conformance with European Union (EU) Directive 1935/2004 for materials and articles intended to come into contact with food. The linings are manufactured in compliance with good manufacturing practice so that, under normal conditions of use they do not transfer their constituents to food in quantities which could:

- endanger human health
- bring about unacceptable change in the composition of the food
- bring about deterioration in the organoleptic characteristics thereof.

A handwritten signature in cursive script that reads 'Maria L. Evangelista'.
